Richmond, VA, August 3, 2026 – Indivior Pharmaceuticals, Inc. (Nasdaq: INDV) today reported its financial results for the second quarter ended June 30, 2026, and raised its full-year 2026 financial guidance.

“Exceptional operational execution in Phase II – Accelerate – of the Indivior Action Agenda fueled strong SUBLOCADE performance in the quarter and is the primary driver of our raised 2026 guidance,” said Joe Ciaffoni, Chief Executive Officer. “We remain focused on Phase II – Accelerate – for the remainder of 2026 and look forward to closing our proposed merger with Supernus, which is expected in the fourth quarter. Upon the close of our proposed merger, all three Phases of the Indivior Action Agenda will have been successfully completed.”

“We delivered record SUBLOCADE net revenue and adjusted EBITDA in the quarter leading us to raise our 2026 guidance,” said Ryan Preblich, Chief Financial Officer. “We now expect 2026 total SUBLOCADE net revenue growth of 20% year-over-year and adjusted EBITDA growth of 68% year-over-year at the midpoint of our guidance ranges. We returned capital to our shareholders through the repurchase of \$175 million in shares during the quarter. We are committed to creating long-term shareholder value.”

Q2 2026 Business Highlights:

- As of June 30, 2026, over 545,000 patients in the U.S. have been prescribed SUBLOCADE since launch.
- Grew total SUBLOCADE net revenue 21% year-over-year to \$253 million. U.S. SUBLOCADE net revenue increased 22% year-over-year to \$238 million versus the prior year, driven by 18% dispense unit volume growth. New patient starts of 32,816 were a record. Net revenue also benefited from more favorable price/mix and gross-to-net adjustments.
- In the second quarter, Indivior repurchased 4,664,540 shares at an average price of \$37.52 for a total of \$175 million. Year-to-date, the Company has repurchased 8,638,693 shares at an average price of \$34.73 for a total of \$300 million.
- Announced findings from two new real-world evidence studies showing that adherence to SUBLOCADE is associated with lower relapse risk, fewer infection-related complications, and reduced healthcare utilization among people living with opioid use disorder (OUD).
- Indivior Pharmaceuticals, Inc. and Supernus Pharmaceuticals, Inc. today announced a definitive agreement to combine in an all-stock merger of equals transaction to create a leading, diversified, scaled, CNS-focused biopharmaceutical company. For additional information on the transaction, please reference the announcement press release at Indivior.com.

Raising Full-Year 2026 Financial Guidance:

Full-year financial guidance assumes no material change in exchange rates for key currencies compared with 2025 average rates, notably USD/GBP and USD/EUR.

	Prior FY 2026 Guidance (4/30/2026)	Revised FY 2026 Guidance
Net Revenue	\$1,215 million to \$1,285 million	\$1,295 million to \$1,365 million
Total SUBLOCADE Net Revenue	\$950 million to \$990 million	\$1,010 million to \$1,050 million

- * We have not provided the forward-looking U.S. GAAP equivalents for certain forward-looking non-U.S. GAAP metrics as a result of the uncertainty and potential variability of reconciling items. Accordingly, the Company has relied upon the exception in Item 10(e)(1)(i)(B) of Regulation S-K to exclude such reconciliations, as the reconciliations of these non-U.S. GAAP guidance metrics to their corresponding U.S. GAAP equivalents are not available without unreasonable effort.

Actual results may differ materially from those expressed or implied in these forward-looking statements due to a number of factors, including: our ability to identify accretive investment opportunities, to negotiate with third parties to acquire such assets, to obtain necessary regulatory approvals, and to efficiently manage such assets and execute upon opportunities; lower than expected future sales of our products; greater than expected impacts from competition; unanticipated costs including the effects of potential tariffs and potential retaliatory tariffs; whether we are able to identify efficiencies and fund additional investments that we expect to generate increased revenue, and the timing of such actions; market acceptance of long-acting injectables; cash available for share repurchases in the future, and the market price of our common stock in the future; the risk that the proposed merger with Supernus may not be completed on the anticipated timeline or at all; the failure to obtain required stockholder or regulatory approvals for the merger, or the imposition of conditions in connection with such approvals; the restrictions during the pendency of the transaction that may limit the parties' ability to pursue business opportunities or strategic transactions; the risk that the anticipated benefits, synergies, growth, profitability, cash flow generation and earnings accretion of the merger are not realized or are realized more slowly than expected; and the difficulties, costs and risks relating to the integration of the two businesses. For additional information about some of the risks and important factors that could affect our future results and financial condition, see "Risk Factors" in our Annual Report on Form 10-K filed February 26, 2026, and in our other filings with the U.S. Securities and Exchange Commission.
